

Incident Response Forensics

Gigit's Incident Response Forensic services implement the elements of the SANS PICERL (Preparation, identification, Eradication, Recover, Lessons Learned) methodology.

Service Summary

Gigit's incident forensic specialists work with the Client to prepare preemptive plans and programs to minimize and attacks while preparing for them. This includes establishing the appropriate processes and methods when the attack occurs. Gigit works with the Client's IT and Security staff to implement the PICERL method to ensure Client's team is prepared to respond to a cybersecurity incident. In the event of an incident gigit will:

- Execute a triage of the attacked environment
- Identify and analyze the impact of the breach and the data impacted
- Collect all relevant data to identify the source of the attack
- Advise on data theft, configuration changes or other malicious actions carried out by the threat actor
- Provide a detailed risk assessment report and close the vulnerabilities based upon the lessons learned from the forensic analysis of the attack.

Gigit Responsibilities

- Develop a detailed Statement of Work with the Client that at a minimum specifies:
 - Scope of the work
 - Delivery schedules
 - Service delivery price
 - Change management terms
 - Any client specific terms or conditions
- Deliver the Statement of Work specified services on time and within the agreed upon price.
- Assign a single point of contact for the project to manage gigit delivery resources, report project progress from start to finish, and act as the gigit representative for resolution of any client or questions.

Client Responsibilities

- Sign a gigit Master Service Agreement
- Sign a gigit Security Services Statement of Work
- Provide written approval for access to project specific IT systems and personnel.
- Identify an individual within the Client team to act as a single point of contact to coordinate and work with the gigit service delivery team.

AVAILABILITY

Gigit Services are available in the United States. If Client requests service outside of the United States, they may Contact gigit for a review of gigit's other delivery location options.

PRICING AND ORDERING

Gigit customizes service delivery pricing based upon the client's business needs and requirements. A Statement of Work provides the detailed pricing. The Client may purchase a single gigit service, bundle multiple services, or purchase a subscription agreement for a period of no less than 1 year. The subscription provides for recommended recurring service delivery throughout the life of the subscription.
